

This week in phonics Blackbirds have been developing their phonics skills. We have been writing words with the correct alternative sound, recapping our phase 5 sounds and practicing the spelling of our tricky words.

During English we have used our imagination to create our own disgusting sandwiches. They were then stolen by some sneaky animals, so our 'Wanted' posters were created.

Blackbirds have been looking at weight and mass this week. We have learnt what mass is, used the language of heavier and lighter, began to compare mass and Learnt about capacity.

In topic we have been super busy. We have been learning life skills including cooking, growing plants and first aid. We have created pictograms, making musical instruments, listening to stories, and enjoying our live P.E lessons.
